

Product Features

Helios Generation 2 Series Recessed Downlight represents the new generation of the ALLURE line, bringing the industry's best performance small-aperture downlights. Trim, optics, and aiming options provide the highest quality of light possible, offering uncompromised performance, finishes, and serviceability. Base light engine offers selectable wattage (5~19W) with 90CRI maintained across 2700K~4000K. A Dim-to-Warm option is available, providing 95CRI over a 3000K~2000K range. Heatsink and trim made from aluminum extruded profile; with a round finish for downlighting or wall wash application, >90 CRI for fixed CCT, >95 CRI for Dim-to-Warm; cULus listed for damp location standard.

Technical Specifications

INPUT VOLTAGE	120-277VAC
FREQUENCY	50/60hz
LUMEN	500 ~ 1,200LM
WATTAGE	5 / 8 / 10 / 13 / 16 / 19W
LPW	67LPW Avg.
COLOR TEMPERATURE	2700K / 3000K / 3500K / 4000K / 3000K~2000K Dim-to-Warm
COLOR RENDERING INDEX	>90 (Static CCT), >95 (Dim-to-Warm)
DISTRIBUTION	30° / 50° Downlight
IP RATING	Damp Location / Wet Location with Optional Waterproof Lens
LIFE SPAN	>50,000 Hours
DIMMING	0-10v 1% Dimming and Triac Dimming (2-in-1)

HL2-G2 Light Engine Summary

LED Chip: Static: CREE. Dim-to-Warm: Bridgelux.

Power: 5W / 8W / 10W / 13W / 16W / 19W

Quality: >90 CRI for fixed CCT, >95 CRI for Dim-to-Warm

CCT: Static: 2700K / 3000K / 3500K / 4000K. Dim-to-Warm: 3000K~2000K

Input: 120-277VAC

Dimming: 0-10v 1% Dimming and Triac Dimming (2-in-1)

Power Factor: Greater than 0.9

Ambient Operating Temperature: -20°C to 40°C

Lifetime: 50,000 hours at 70% lumen maintenance

Listing: cULus Damp Location / Wet Location with Optional Waterproof Lens.

HELIOS G2 SERIES | 2" RECESSED

DIMENSIONS - HOUSING

RM - No Housing, Remote Mount Driver with Enclosure

HL2-NCH - New Construction Frame Kit (Non-IC)

Standard Non-IC mounting frame.
Wiring junction box, fixture driver box rest on the frame kit by magnet when installed as shown below.

Mounting Hole

HL2-ICH - New Construction IC-Rated Frame Kit

IC-Rated housing frame kit allows direct contact with insulation.

HELIOS G2 SERIES | 2" RECESSED

INSTALLATION

Assemble Trim, Lens, and LED Engine

1. Assemble Lens and LED Engine:

Attached together, and secure them tight with clockwise direction.

2. Assemble Lens and Trim:

Slide the button downward in the trim direction to combine the lens and trim. Once aligned, slide it upward to lock into place (See 2-1).

New Construction Applications

Step 1: Install the fixture in the ceiling using the two hanger bars **1** (Supplied) . Mount the fixture in the ceiling so that the weight of the fixture is supported by the hanger bars, mounting channel, bar, and/or hanger wires secured to the building structure. Drill a ø2.30" hole in drywall **2**.

Step 2: Open the J-box **3** **4**, connect the power supply and ground wire according to the wiring diagram. (Only if the driver has 0-10V dimming, the dimming wire needs to be connected).

Step 3: Connect LED downlight with housing using provided quick-connectors **5**.

Step 4: Complete installation by carefully tighten the spring clips through the ceiling opening **6**.

Min. 13.8" x 19.33" x 6"

Max. 24" x 19.33" x 6"

HELIOS G2 SERIES | 2" RECESSED

INSTALLATION

Remodel Applications

Step 1: Drill a $\varnothing 2.30"$ hole in the ceiling.

Step 2: Plug AC power cord into the quick connector A. (Only if the driver has 0-10V dimming, the quick connector B needs to be connected.) Plug the male connector with the female connector. Connect the ground wire **2**.

Step 3: Connect LED downlight with housing using provided quick-connectors **3**.

Step 4: The driver box is fixed to the ceiling by magnetic force of a magnet **4**.

Step 5: Complete installation by carefully tighten the spring clips through the ceiling opening **5**.
