

**Product Features**

Helios Generation 2 Series Recessed Downlight represents the new generation of the ALLURE line, bringing the industry’s best performance small-aperture downlights. Trim, optics, and aiming options provide the highest quality of light possible, offering uncompromised performance, finishes, and serviceability. Base light engine offers selectable wattage (5~19W) with 90CRI maintained across 2700K~4000K. A Dim-to-Warm option is available, providing 95CRI over a 3000K~2000K range. Heatsink and trim made from aluminum extruded profile; with a round finish for downlighting or wall wash application, >90 CRI for fixed CCT, >95 CRI for Dim-to-Warm; cULus listed for damp location standard.

**Technical Specifications**

INPUT VOLTAGE	120-277VAC
FREQUENCY	50/60hz
LUMEN	500 ~ 1,200LM
WATTAGE	5 / 8 / 10 / 13 / 16 / 19W
LPW	67LPW Avg.
COLOR TEMPERATURE	2700K / 3000K / 3500K / 4000K / 3000K~2000K Dim-to-Warm
COLOR RENDERING INDEX	>90 (Static CCT), >95 (Dim-to-Warm)
DISTRIBUTION	30° / 50° Downlight
IP RATING	Damp Location / Wet Location with Optional Waterproof Lens
LIFE SPAN	>50,000 Hours
DIMMING	0-10v 1% Dimming and Triac Dimming (2-in-1)

#### HL2-G2 Light Engine Summary

**LED Chip:** Static: CREE. Dim-to-Warm: Bridgelux.

**Power:** 5W / 8W / 10W / 13W / 16W / 19W

**Quality:** >90 CRI for fixed CCT, >95 CRI for Dim-to-Warm

**CCT:** Static: 2700K / 3000K / 3500K / 4000K. Dim-to-Warm: 3000K-2000K

**Input:** 120-277VAC

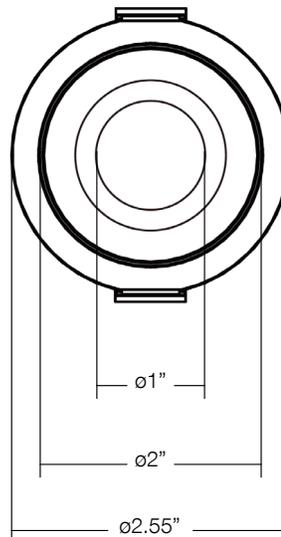

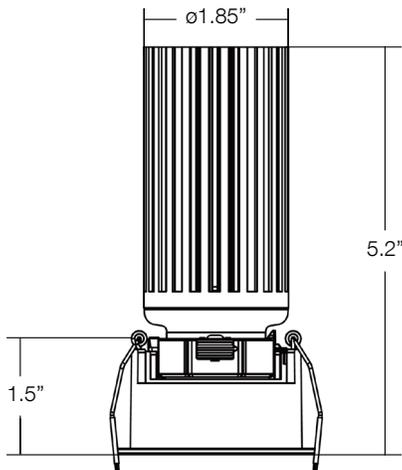

**Dimming:** 0-10v 1% Dimming and Triac Dimming (2-in-1)

**Power Factor:** Greater than 0.9

**Ambient Operating Temperature:** -20°C to 40°C

**Lifetime:** 50,000 hours at 70% lumen maintenance

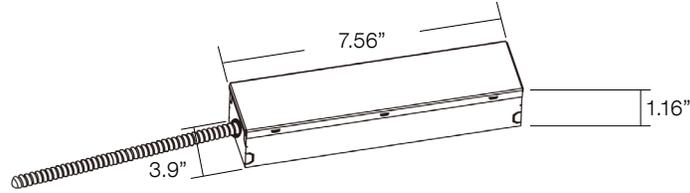

**Listing:** cULus Damp Location / Wet Location with Optional Waterproof Lens.

## HELIOS G2 SERIES | 2" RECESSED

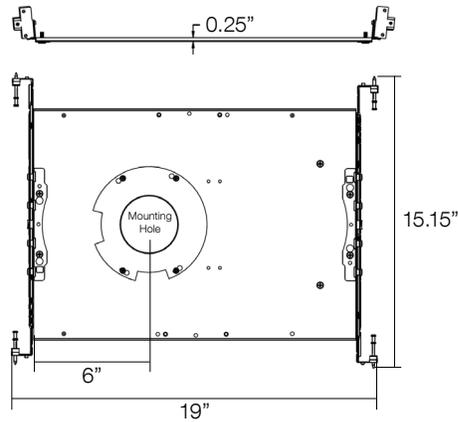

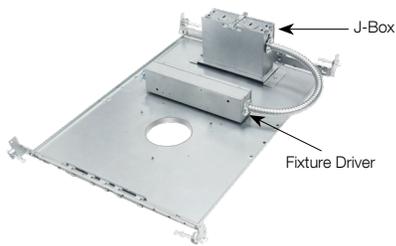

### DIMENSIONS - HOUSING

**RM** - No Housing, Remote Mount Driver with Enclosure

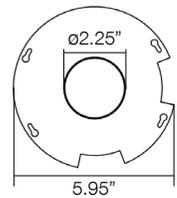

**HL2-NCH** - New Construction Frame Kit (Non-IC)

Standard Non-IC mounting frame.  
Wiring junction box, fixture driver box rest on the frame kit by magnet when installed as shown below.

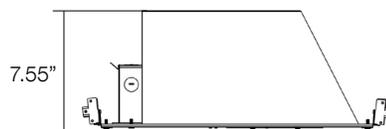

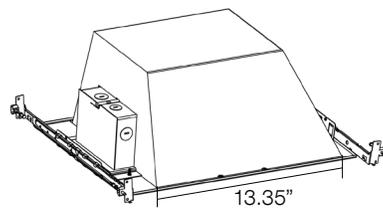

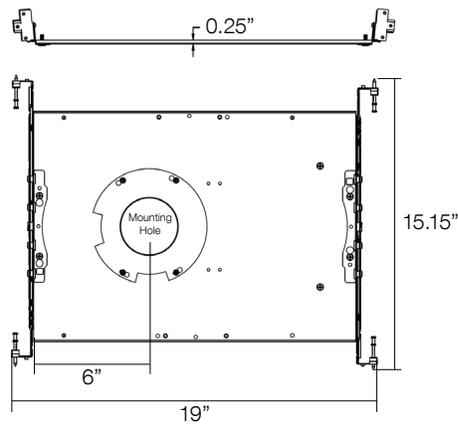

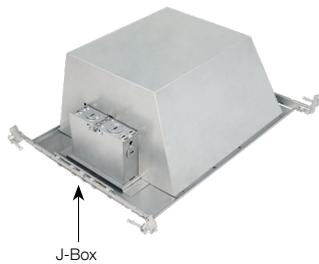

Mounting Hole

**HL2-ICH** - New Construction IC-Rated Frame Kit

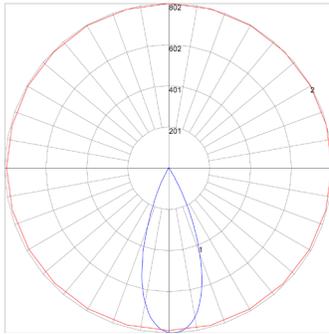

IC-Rated housing frame kit allows direct contact with insulation.

## HELIOS G2 SERIES | 2" RECESSED

### INSTALLATION

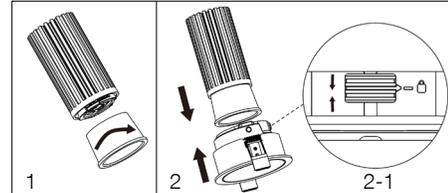

#### Assemble Trim, Lens, and LED Engine

**1. Assemble Lens and LED Engine:**

Attached together, and secure them tight with clockwise direction.

**2. Assemble Lens and Trim:**

Slide the button downward in the trim direction to combine the lens and trim. Once aligned, slide it upward to lock into place (See 2-1).

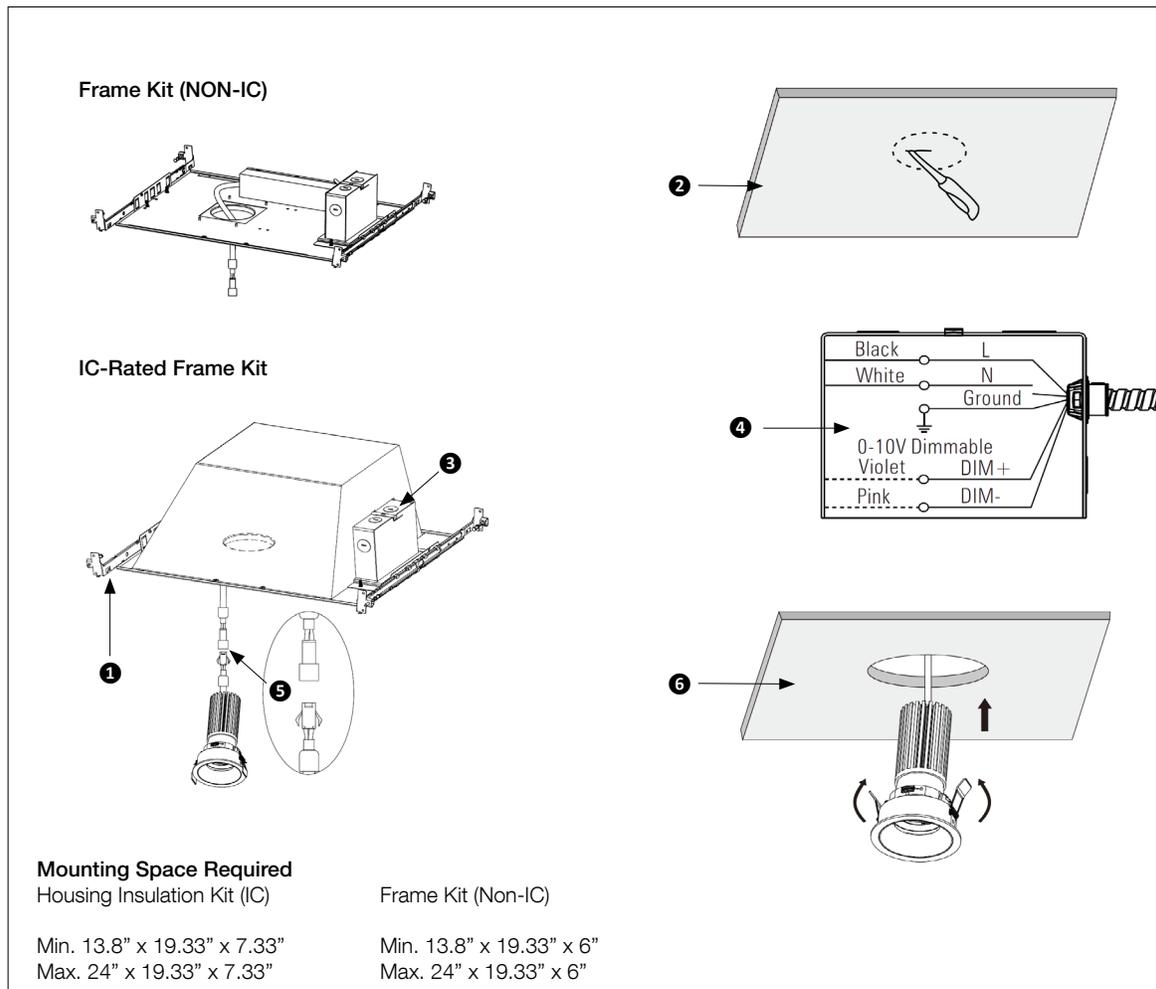

#### New Construction Applications

**Step 1:** Install the fixture in the ceiling using the two hanger bars **1** (Supplied) . Mount the fixture in the ceiling so that the weight of the fixture is supported by the hanger bars, mounting channel, bar, and/or hanger wires secured to the building structure. Drill a  $\varnothing 2.30"$  hole in drywall **2**.

**Step 2:** Open the J-box **3** **4**, connect the power supply and ground wire according to the wiring diagram. (Only if the driver has 0-10V dimming, the dimming wire needs to be connected).

**Step 3:** Connect LED downlight with housing using provided quick-connectors **5**.

**Step 4:** Complete installation by carefully tighten the spring clips through the ceiling opening **6**.

## HELIOS G2 SERIES | 2" RECESSED

### INSTALLATION

#### Remodel Applications

**Step 1:** Drill a  $\varnothing 2.30"$  hole in the ceiling.

**Step 2:** Plug AC power cord into the quick connector A. (Only if the driver has 0-10V dimming, the quick connector B needs to be connected.) Plug the male connector with the female connector. Connect the ground wire **2**.

**Step 3:** Connect LED downlight with housing using provided quick-connectors **3**.

**Step 4:** The driver box is fixed to the ceiling by magnetic force of a magnet **4**.

**Step 5:** Complete installation by carefully tighten the spring clips through the ceiling opening **5**.
